Dear Darren & Andrew,

Thankyou for this regular information by email. A lot of what you receive these days is junk, but I found 2 very useful items in your latest email below - refuelling safety tips, and the Mercury 5 year warranty.

Regards,  
Karl Grimm.

## CAPTAIN'S BRIEFING

**Welcome to our June '08 edition and to Melbourne's winter, where open fires, a glass of red and the footy onTV seem so perfect.**

It's been an interesting time on the water, sadly with tragic accidents over the past few weeks both in Sydney and Melbourne taking precious life. Both accidents which are still under investigation by Poilice and Marine Safety, have taken the spotlight away from what has been another terrific boating season on the water.

With wonderful weather, clean waterways, good fishing and new boating destinations being built around our bay "Life's Better With A Boat".

With vessel registrations up on 2006, the national 2007 registration numbers broken down by state are as follows;

WA	85,334
SA	55,123
TAS	25,365
