

I have been using your Web Cam, this is what I think:

1> I love being able to view the bay and make a judgement about whether to take the boat out for the day.

2> seeing the live stream lets me pick a time when the ramps will be less congested

3> would love to see a similar operation running at the mouth of the Patterson River entrance and even the Frankston Ramp this could really improve boating decisions for many boaters keep up the good work

Name: Kimberley Graham

Phone: 04098655323 (we may call you to discuss)

Viewing Location: home (home, office, boat etc)

Suburb: Wantirna South
